

# Football helmet designer

By Chance Keller

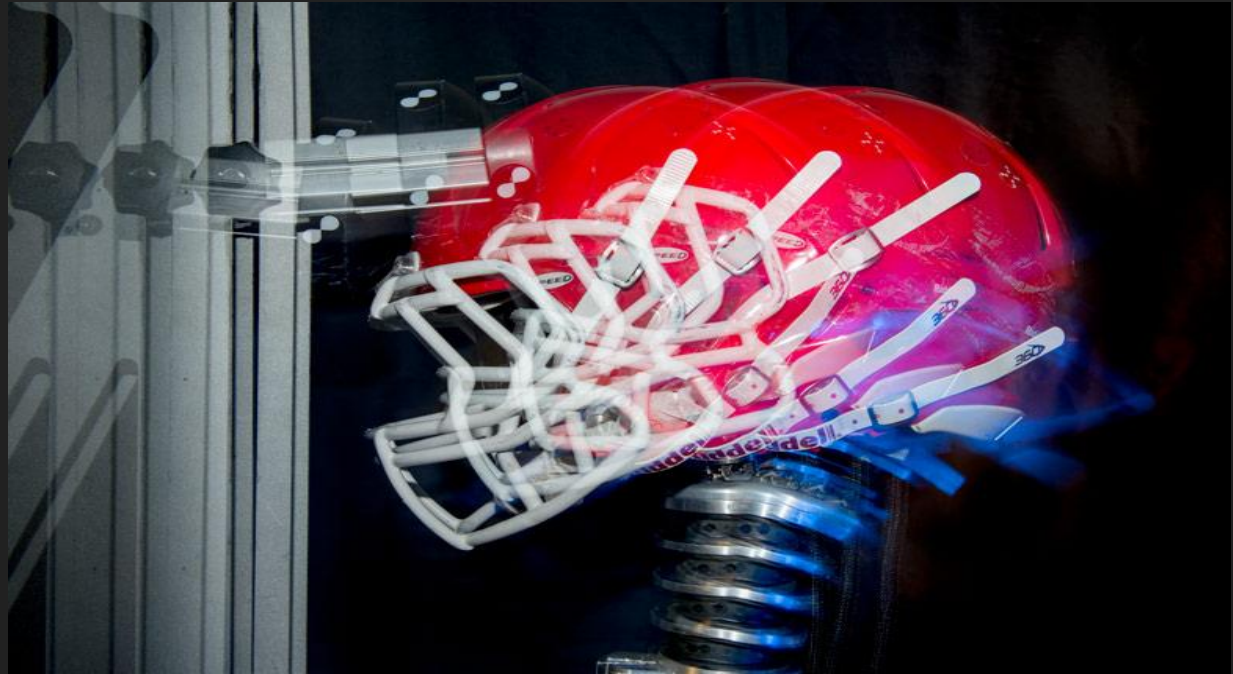

# Definition

They draw up and design helmets to prevent concussions and look cool

# What they do

They generally draw up designs for different helmet designs and different helmet types then test them by wacking them on a wall to see if they are safe to use.

# If you worked in this job

If you worked in this field you would work in a factory and at places like Xenith Riddell and Schutt. You would get paid on average \$85,000 a year.

**XENITH®**

**Riddell.**

# The outcome product

# What I find interesting

What I find interesting about this is all the cool designs you can make of the helmets and all the different shape designs of the helmets.

# Riddell®

# What this company does

Riddell is located in its main place Ohio and have been a company for football since 1939 and were one of the first helmets created. They chose the career to become the safest helmet for athletes to use.

# Why i chose this company

I chose riddell because it was one of the first helmet types created and i use it when i play football

The End
