What does a concept artist do

A video game concept artist is the person that draws different variations of a character, object, or place which the higher ups decide which one they want out of the variations and that gets sent to be implemented in the game.

A day in this career

A concept artist usually draws all day aside from showing developers.

Where does a person in
this career work

A video game concept artist works at
An office/studio

What is the average
salary of a person in
this career

69,560 dollars a year

A large, dark dragon with glowing orange eyes and wings is breathing fire over a city that is on fire. The scene is dark and fiery, with a large, dark dragon breathing fire over a city that is on fire. The dragon's head is in the center, with its mouth open, breathing fire. The city below is in flames, with smoke rising into the sky. The overall atmosphere is one of destruction and chaos.
